

T-SHIELD

Designed to provide ultimate and emergency protection for public safety personnel, the **T-SHIELD** furnish an immediate protective solution in intervention situations that can escalate violently. It offers effective shielding against thrown items, blows and attacks with objects of any kind, as well as against the projectiles of the most common firearms.

MADE IN FRANCE

T-SHIELD are made of the **TENEXIUM** composite material, which combines performance, weight control, durability and at an affordable price.

Alsace

The **T-SHIELD** range offers shields of various sizes and shapes depending on the ergonomics and protection level required.

Easy to store in light vehicles without cluttering the passenger compartment thanks to an optional fastening harness, **T-SHIELD** are easily accessible at any time depending on the assessment of the intervention situation and its development.

An optional light and dazzle strip is also available, which is attached to the shield with a hook and loop tape.
